

## WASTE SITE RECLASSIFICATION FORM

Operable Unit: 200-OA-1

Control Number: 2019-002

**Waste Site Code(s)/Subsite Code(s):**

200 CP; 200 Area Construction Pit; 200 Area Construction Waste Site; Hanford Site Gravel Pit 29

Reclassification Category: ☐ Interim ☒ Final

Reclassification Status: ☐ Closed Out ☐ No Action ☒ Rejected  
☐ RCRA Postclosure ☐ Consolidated ☐ None

Approvals Needed: ☐ DOE ☐ Ecology ☐ EPA

**Description of Current Site Waste Condition:**

*(what is the current physical state of the site? what activities have been performed?)*

The site is a large, slightly depressed gravel area. The pit (Pit 29) is no longer being used as a source of gravel. The 2704HV parking lot was placed over a portion of southern part of the original pit.

**Basis for Reclassification:**

*(how does the site meet the reclassification status?)*

A 1969 aerial photograph shows a significant pile of debris inside the pit. Older documentation states that the pit was used for disposal of inert waste like concrete blocks and debris. In August 2019, a geotechnical evaluation of the subsurface of the 200 CP WIDS site was done. This investigation included three infiltration test pits and six excavated test pits. All nine test pits were observed, radiologically surveyed and logged for debris identification. The test pits were dug to depths of 6 to 12 feet. Some non-contaminated concrete, wood, cables, wire and steel debris was found in the test pits. No radiological contamination was identified during the geotechnical evaluation.

**Project Manager Comments:**

**Waste Site Controls:**

|                     | Yes                   | No                               |                        | Yes                   | No                               |                  | Yes                   | No                               |
|---------------------|-----------------------|----------------------------------|------------------------|-----------------------|----------------------------------|------------------|-----------------------|----------------------------------|
| Engineered Controls | <input type="radio"/> | <input checked="" type="radio"/> | Institutional Controls | <input type="radio"/> | <input checked="" type="radio"/> | O&M Requirements | <input type="radio"/> | <input checked="" type="radio"/> |

If any of the Waste Site Controls are checked "Yes", specify control requirements including reference to the Record of Decision, TSD Closure Letter, or other relevant documents:
